WINTER BOOTS

TECNICA ARGOS

ARGOS IS A NEW CONCEPT OF AFTER SKI BOOT WITH A UNIQUE MODERN LOOK, TARGETING FOR THE FIRST TIME YOUNG, PROGRESSIVE SKIERS OFFERING WARMTH, PROTECTION AND A NEW EASY STEP IN FUNCTION. JUST PERFECT AFTER A LONG SKI DAY.

- EASY STEP-IN
- WARMTH
- SNOW PROTECTION AND GRIP ON SNOWY TERRAIN

TECHNICAL FEATURES

FAST AND EASY ENTRY CUFF DESIGN

Stepping in a warm and comfortable boot after a long ski day is a dream for all skiers. The unique cuff design allows for a fast and easy step in even with wet socks.

DUAL LACING SYSTEM QUICK LACE

Fast mode: lace operates only until the instep for a super fast lacing while the elastic net keeps the tongue in place and allows you to walk even with open collar.

Full mode: the lace can operate also on the collar hooks to have a precise fit and protection for winter hiking and snow shoeing.

WARMTH GORE-TEX® INSULATED WITH FLEECE LINING

The unique GORE-TEX® insulated lining with fleece provides water and snow protection, instant warmth and high level of insulation even with wet socks. Comfortable up to -20° c / -4° F

TECHNICAL FEATURES

SNOW PROTECTION HYDROPHOBIC UPPER MATERIAL

Full synthetic hydrophobic upper materials provides durability and high level of water/snow resistance.

- Easy to clean and wash
- TPU lamination for durability on the toe area

GRIP ON SNOWY TERRAIN OUTSOLE

Unique design, for extreme traction on snow and mud with Tecnigrip winter compound which is durable and grippy.

TECNICA

ALL MOUNTAIN

MAGMA

THE MAGMA IS DESIGNED TO HIKE, RUN AND SCRAMBLE IN ALL TYPES OF TECHNICAL MOUNTAIN TERRAIN. IT DELIVERS A NEW LEVEL OF GRIP AND PROTECTION IN A LIGHTWEIGHT, COMFORTABLE SHOE.

- PERFECT INDIVIDUAL FIT
- ALL TERRAIN GRIP AND PROTECTION
- DOWNHILL PERFORMANCE AND SHOCK ABSORPTION

15
CUSTOMIZED
IN 15 MINUTES

PERFECT INDIVIDUAL FIT

GREAT FIT OUT OF THE BOX ANATOMICAL LAST

Hiking and running in harsh and variable terrains requires a superior level of comfort and secure foot hold. The Magma upper and footbed are pre-shaped around a specific anatomical last to deliver a great feel and perfect fit, right out of the box.

This anatomical fit also provides greater midfoot support and heel hold.

NO BREAK-IN TIME CUSTOM ADAPTIVE SHAPE

No two feet are alike. For this reason, we believe that shoes should be able to adapt to the unique shape of each person's feet.

The option to customize our shoes makes it possible to dramatically reduce the time normally needed to break in a new pair of shoes. This also solves the majority of problems related to comfort, blistering and lack of precision.

MIDFOOT SUPPORT PRE-MOLDED EVA FOOTBEDS

When muscles get tired during a long traverse or downhill section on rocky terrain, it's crucial to have a shoe capable of supporting the midfoot to prevent ankle injuries.

Unlike our other C.A.S. shoes, the Tecnica Magma is offered with a pre-molded, cushioned EVA footbed that delivers a great, instant fit without requiring customization.

TECHNICAL FEATURES

MICRO ADJUSTMENT INTEGRATED LACING SYSTEM

Highly durable yet lightweight construction with a classic tongue design for a faster step-in, combined with an integrated lacing system for improved fit precision.

ALL-TERRAIN GRIP VIBRAM® LITEBASE MEGAGRIP™ SOLE

The unique multi-traction outsole tread pattern, inspired by MTB enduro tire designs, made with VIBRAM® LITEBASE™ technology and MEGAGRIP™ compound rubber, offers optimal grip on all surfaces and in both dry and wet conditions.

PROTECTION AND DURABILITY XO-SHIELD SOLE

Our new sole is developed with the innovative VIBRAM® LITEBASE™ technology and MEGAGRIP™ compound rubber. It wraps the upper in critical abrasion zones, providing grip, traction and durability not just underfoot, but also on the toe and sides – all without additional weight or bulk – and with no need for a conventional glued rubber rand.

SHOCK ABSORPTION HIGH REBOUND EVA MIDSOLE

High rebound compression molded EVA midsole to absorb heavy impact on descents, ESS shank to control torsion and rock plate to protect the forefoot against rough terrain. The 8 mm drop delivers excellent trail running performances.

FAST TRANSITION ROUNDED TOE DESIGN

The last, midsole toe rocker and unique rounded toe shape have been carefully designed to enhance the Magma's responsiveness, grip and fast acceleration and transition in technical terrains.

DOWNHILL PERFORMANCE OVERSIZE HEEL

The ultra-large heel shape provides great stability when hiking or running downhill and on technical traverses. Two rubber stability fins on each side of the back of the shoe provide an unparalleled level of braking on technical descents, including on scree, gravel or loose rocks.

TECHNICAL FEATURES

PROTECTION AND ANKLE SUPPORT

The mid cut height collar adds ankle protection and support for safer hiking in technical terrains. It also increases the snow and water protection making Magma Mid a great choice as an outdoor shoe to be used also in winter time.

WATERPROOFNESS AND BREATHABILITY GORE-TEX®

Premium upper materials offer water repellency and durability.

GORE-TEX® liners provide the ultimate combination of waterproofness and breathability.
